OCT
2026

EDITOR'S MESSAGE

From the Chief Editor's Desk

Dear Readers,

Welcome to the October 2026 edition of The JKIS Times!

October has been a month of new beginnings, vibrant celebrations, and exciting developments at Jet Kids International School. This edition captures the moments that showcase our commitment to celebrating traditions, recognizing student growth, and keeping our community closely connected.

One of our significant milestones is the continued evolution of our e-newsletter in a convenient digital format. We are also delighted to introduce our new Alumni Column, a dedicated space to reconnect with former students and celebrate their ongoing achievements.

Furthermore, the launch of our official WhatsApp Channel marks another important step toward enhancing seamless communication with our school family.

A major highlight of the month was the grand inauguration of our fully developed Sports Club, reflecting our vision of promoting fitness, discipline, teamwork, and sporting excellence. Additionally, our campus came alive with festive energy during the colorful Garba celebration, while our Open Day provided another meaningful opportunity to engage with parents and guardians.

Each initiative represents a meaningful step in our ongoing journey of learning, innovation, and collective growth. I extend my heartfelt gratitude to our School Management, Principal, teachers, students, parents, the editorial team, and all the language teachers for their dedication and unwavering support in bringing this edition to life.

As you explore this edition, I hope you enjoy revisiting October's achievements and feel inspired by the vibrant spirit of our JKIS family.

Together, let us celebrate our progress, honor our roots, and embrace new possibilities.

Happy Reading!

Ata ur Rahman

Chief Editor, The JKIS Times

VALUES · COMPETENCIES · RESPONSIBILITY

THE SOCIETY WE CREATE IS THE FUTURE OUR CHILDREN INHERIT

Shaping Responsible Citizens Through Values and Competency-Based Education

We often complain that today's children lack patience, respect, discipline, and sensitivity. We question their behaviour and choices, but have we ever paused to ask ourselves: What kind of example are we setting for them?

Children learn not only from textbooks and classrooms but also from the world they observe every day. They watch how we speak, treat others, handle disagreements, and respond to challenges. Before expecting children to build a better society, we must reflect on the society we are creating for them.

Education is not merely about earning degrees, achieving high marks, or securing successful careers. Its true purpose is to develop responsible, compassionate, and capable human beings. Academic knowledge is important, but it must go hand in hand with honesty, empathy, respect, and accountability.

Coordinator (Secondary Section)

VALUES, PRACTISED

The change we wish to see in the next generation must begin with us.

The responsibility of shaping young minds does not rest with schools alone. Parents, teachers, and society must work together to nurture these values. When children see adults respecting differences, following rules, helping others, and accepting their mistakes, they learn that values are not just words to be preached, but principles to be practised.

In today's rapidly changing world, education must also move beyond rote learning and memorisation. Competency-based education emphasises the ability to apply knowledge, think critically, solve problems, communicate effectively, and make informed decisions. It prepares students not merely to answer questions in examinations, but to face real-life situations with confidence and responsibility.

However, competencies become truly meaningful when guided by strong moral values. Intelligence without empathy, knowledge without responsibility, and success without integrity cannot create a better society. We must nurture individuals who can think independently, act wisely, respect others, and use their knowledge for the common good.

We cannot expect children to respect others if they witness disrespect around them. We cannot demand honesty if dishonesty is accepted for convenience. Similarly, we cannot expect responsible citizens if we neglect our own social responsibilities.

Every family, classroom, and community has a role to play in shaping the future. Let us create an environment where values are practised, curiosity is encouraged, competencies are developed, and kindness is reflected in everyday actions.

Ultimately, education should not merely prepare children to succeed in life; it should empower them with the knowledge, skills, values, and wisdom to make life better for others.

Let us not merely prepare children for the world they will inherit; let us inspire them to create a world worth inheriting.

Mrs. Sadhana Dubey

Coordinator (Secondary Section)

A NEW CHAPTER AT JKIS

Sports Club *Inauguration*

Space to play. Room to grow.

Promoting fitness, discipline, teamwork, and sporting excellence.

STUDENT'S CORNER

My Wonderful School Subjects

English helps me read and write,
Words and stories bring delight!

Hindi teaches words so sweet,
Lovely poems are fun to read!

Mathematics makes me think,
Numbers, sums, and patterns link!

Science shows the world to me,
Plants and animals I love to see!

Social Studies helps me know
About our country, high and low!

Computer is fun to learn,
Click and type, and watch things turn!

Art lets me draw and paint,
Beautiful pictures, no complaint!

Marathi teaches me to say
Lovely words in a special way!

All my subjects help me grow,
So much more each day I know!

I love my school, I love to learn,
And every day, new things I earn!

STUDENT ARTWORK · GRAPHITE PORTRAIT

TEACHERS' CORNER

विषय: "दुसरी आई... पण तिची गोष्ट वेगळी!"

दुसरी आई... पण तिची गोष्ट वेगळी!

आई बोट धरून चालायला शिकवते,
शिक्षिका मात्र स्वतःच्या पायावर उभे राहायला शिकवते.

आई घरात स्वप्न पाहायला शिकवते,
शिक्षिका त्या स्वप्नांना पंख द्यायला शिकवते.

आईच्या कुशीत अश्रू विरघळतात,
शिक्षिकेच्या शब्दांत हरवलेला आत्मविश्वास पुन्हा सापडतो.

आई म्हणते, "तुला भूक लागली का?"
शिक्षिका विचारते, "आज तू शांत का आहेस?"

आईला मुलाच्या चेहऱ्यावरचे दुःख कळते,
शिक्षिकेला गर्दीतही एखाद्या मुलाचे हरवलेले हसू दिसते.

कधी ती कौतुकाची थाप असते,
कधी चुकीवरची समज असते,
कधी कठोर वाटणारी शिस्त असते,
तर कधी न बोलताही समजून घेणारी माया असते.

तिच्या हातात पाळणा नसतो,
पण ती कित्येक स्वप्नांना झुलवत असते.

तिच्या पदरात घर नसते,
पण तिच्या मायेच्या सावलीत असंख्य बालपण विसावत असतात.

ती प्रत्येक विद्यार्थ्याला स्वतःचे मूल म्हणणार नाही कदाचित,
पण प्रत्येक मूल हरवू नये म्हणून ती मनापासून प्रयत्न करत असते.

आई जन्म देते एका जीवाला,
शिक्षिका घडवते त्याच्या उज्ज्वल भवितव्याला.

म्हणूनच शिक्षक ही केवळ एक व्यक्ती नाही,
ती केवळ एक नोकरी नाही,
ती असते विश्वासाची जागा,
संस्काराची शिदोरी,
आणि आयुष्यभर आठवणीत राहणारी मायेची दुसरी सावली.....!

A teacher may not be a child's first mother, but sometimes becomes the first person outside the family who truly believes in the child's potential."

"A teacher doesn't just teach lessons; a teacher becomes a part of the student's life story."

– Kiran J. Chavan

A Pre Primary Teacher

Parents' Corner

प्रीतीच्या फुला

प्रीतीच्या फुला,
दारात माझ्या
उगवू नको...

स्मृतींच्या यातनांचा
सुगंध पुन्हा पुन्हा
दरवळू नको...

आठवणींच्या पाकोळ्यांना
वाऱ्यावर असा
उडवू नको...

मज मोहित करून
विरहाचं गीत
गाऊ नको...

त्या माझ्या
स्वप्नांच्या गावी
मज तू नेऊ नको...

प्रीतीच्या फुला,
दारात माझ्या
उगवू नको...

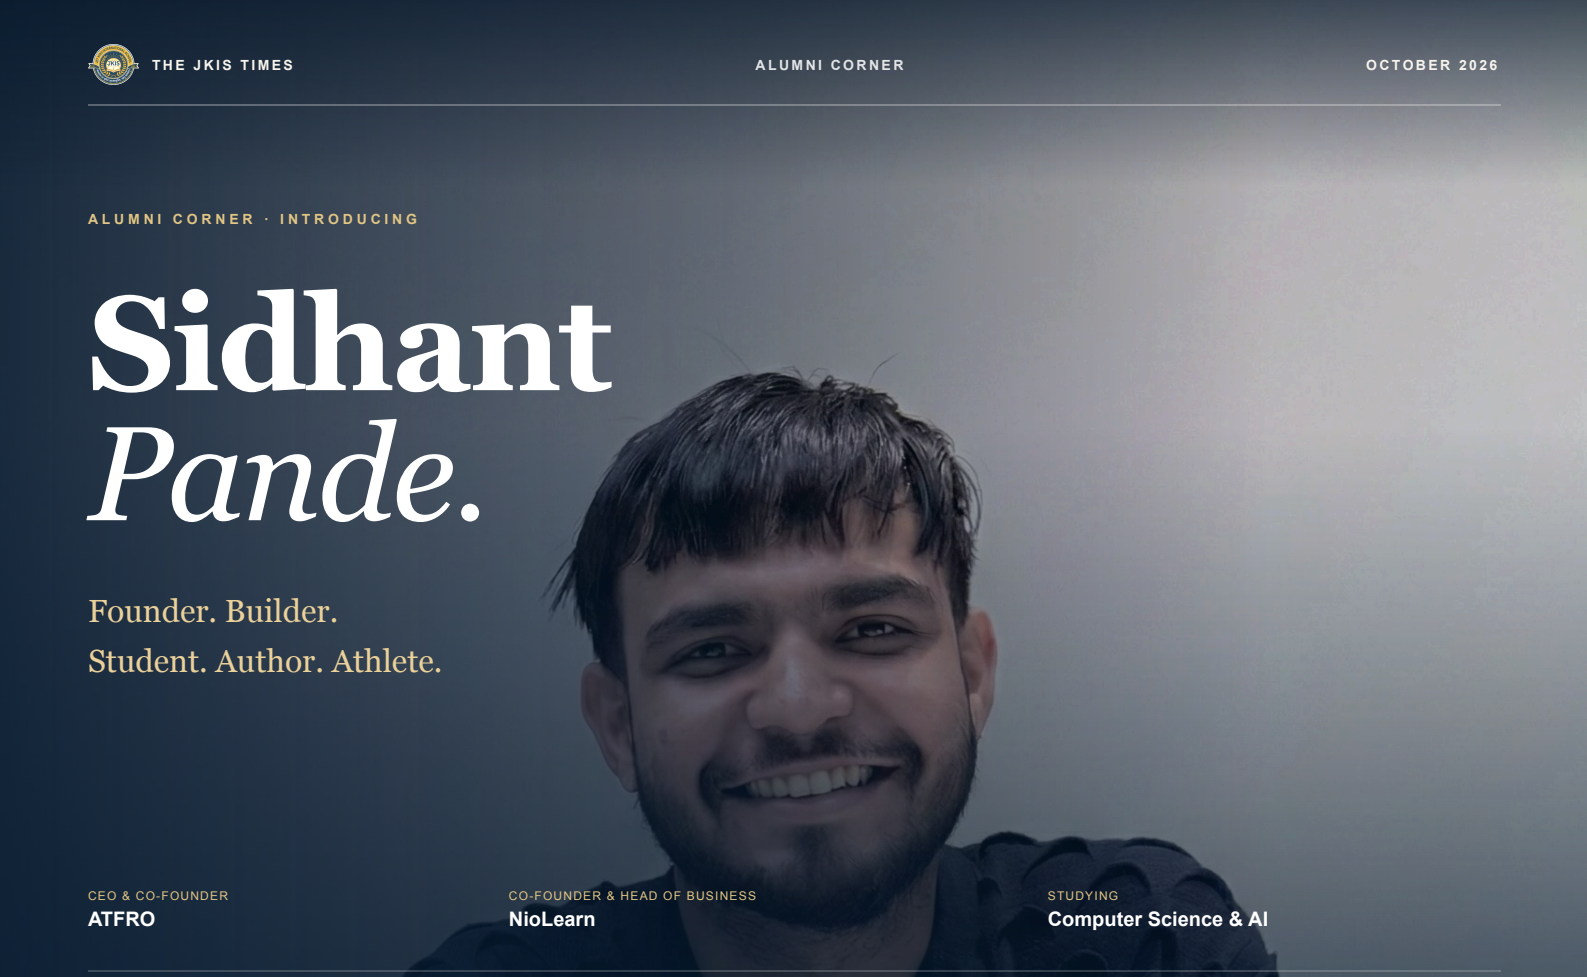
— Anita Dabhadkar
Parent of Anushka Dabhadkar STD IX

WORDS FROM OUR SCHOOL FAMILY

ALUMNI CORNER · INTRODUCING

Sidhant *Pande.*

Founder. Builder.
Student. Author. Athlete.



CEO & CO-FOUNDER
ATFRO

CO-FOUNDER & HEAD OF BUSINESS
NioLearn

STUDYING
Computer Science & AI

Sidhant Pande's interests cross technology, entrepreneurship, writing, and sport. For this October edition's Alumni Corner, his journey offers a glimpse of the many directions curiosity can take beyond the classroom.

Now pursuing a B.Tech in Computer Science and Artificial Intelligence at Vedam School of Technology, Pune, Sidhant combines his studies with hands-on work in software and business. He is CEO and Co-Founder of ATFRO, a venture focused on technology and growth systems, and Co-Founder and Head of Business at NioLearn, an education venture helping students navigate modern technology admissions.

His portfolio brings together full-stack development and artificial intelligence, with projects such as Atfro Studio and Study Buddy. As President of the Open Source Club, he also takes an active role in a community built around learning, building, and sharing.

There is a creative side to this work, too. Sidhant is a Kindle-published author of five books, while his sporting background includes national-level table tennis and skating. Together, these pursuits reflect an interest in exploring ideas, expressing them clearly, and developing the discipline to keep improving.

For JKIS students exploring their own interests, this profile is a reminder that learning can grow in several directions at once. A classroom question can become a project; a hobby can become a practice; and a willingness to begin can open an unexpected path.
